The figure displays a 4x4 grid of 16 coordinate systems. Each system is defined by its axes (x, y, z), the angles of the axes relative to the horizontal, and the scale of the axes. The axes are labeled with x, y, and z. The angles are labeled with 0°, 45°, 15°, -15°, and -45°. The scales are labeled with 1, 2, 3, 4, 5, 7, 8, 9, 10, 12, 13, 14, 15, 16, and 17. The coordinate systems are arranged in a 4x4 grid, with the first row containing systems 1 through 4, the second row containing systems 5 through 8, the third row containing systems 9 through 12, and the fourth row containing systems 13 through 16.

System	Angles (°)	Scales
1	0°, 45°	1, 2
2	0°, 45°	1, 2
3	0°, 45°	1, 2
4	-45°, -45°	1, 2
5	15°, 15°	1, 2
6	15°, 15°	1, 2
7	15°, 15°	1, 2
8	15°, 15°	1, 2
9	45°, 45°	1, 2
10	45°, 45°	1, 2
11	45°, 45°	1, 2
12	-15°, -15°	1, 2
13	-15°, -15°	1, 2
14	-15°, -15°	1, 2
15	0°, 45°	1, 2
16	0°, 45°	1, 2
17	0°, 45°	1, 2
